Were What?

Celia Kyle

Were What? Celia Kyle

Lyla's on the run from her pack's omega. Since he's at the bottom of the totem pole in her pack, this should be simple, right? Tell that to her aching lungs and jiggling thighs. She's never been one to go with the flow. So when her alpha orders her to submit to mating with the omega she's not about to start now. Good thing she runs into (literally) a big hunk of man who can make the scariest of wolves tuck tail and run.

Michael's had enough of weres to last a lifetime. After being caught in the middle of a territory war while in Brazil between the Pumas and Jaguars, he sure as hell doesn't want anything to do with the trouble following Lyla. But apparently no one told that to his cock.

From Reader Review Were What? for online ebook

Deb Diem says

I won a copy of Were What? by Celia Kyle. As a thank you I always try to post a review. This is the second of 3 books that I won. I enjoy Celia Kyle's writing style. Were What? was packed with humor and heat. This is a very short read for those with limited time for reading. This book is not a cliffhanger. I'm looking forward to the next Celia Kyle book.

Sheryl says

Really sexy, short read, i love Ms.Kyle's style of writing, that said, the ending was a bit abrupt, i kept thinking that i was missing a chapter or even an extra sentence!

Marsha says

Nope...not for me.

Ellen says

January 24,2013

A nice short read.

Love that the heroine is plus Sized wusky even tho the cover is all wrong. The hero is human and he rescues her.

She decides to mate with him

It could of been a bit longer and more developed but a nice quick read.

Delta says

2.5 stars

April says

This is a really quick read that is filled with smexy scenes but light on story. I enjoyed it, I just wished there were more of a plot to the whole thing. It will definitely get your engines revved. I was also not a huge fan of

Lyla, she was far more insecure than I usually like. She did have a very confident moment in the shower though. Yummy quickie.

Delphina says

For a short, this was pretty good. It had some elements I loved. I tp loved that she was the were and the one claiming a mate. I loved that she was not the teeny timpani super model type. I am not really sure why they have a skinny chick on the cover since the only female in the story is supposed to be big. I liked that it started with suspense. What I had a difficult time with was the ending. It felt like something important was missing. I also felt like some key details in the plot were missing, but that tends to happen in shorter reads. I recieved this book when I signed up for her emails. I will probably read more by her. It sounds like she has a pretty interesting shifter world in her imagination and I would like to read more about it.

Melissa Mueller says

Overall, this book seemed unfinished to me. The characters could have been fleshed out better with more detail and emotion, I did not feel connected with any them. The storyline was dull and felt as if I started reading in the middle of another story. This book worked more as a short erotica than a "romance" and the early set sex scenes were basic at best. I still feel as if the true furry audience may enjoy additional animal aspects, many of the characters feel 90% human, 10% animal.

Finally, as a free book, I would have hoped that Celia could have given a better example of her work. I'm giving it two stars because I think this story has potential if it were lengthened and so that the reader can be fully enveloped into the story's world.

Ceola says

As I said I like Celia Kyle. BUT if you are gonna have a BBW as a heroine. Your front cover should represent! There has to be stock fotos of BBW of all colors and sizes.. Don't wimp out on the cover. Yea I know some do judge a book by its cover. But if you are bold enough to write about women with curves. And I know several of your books have BBW. So let's see it.

Now

Wusky(half husky half wolf) layla is being forced into a mating with the pack omega .. She, her wolf ,nor her dog wants anything to do with Carl,the omega. As she is running away from Carl she runs,literally, into michael,who is human.. Michael is aware of "were's". He just doesnt realize Layla is one!

L Bongiorno says

3.5 stars. A short fun free read.

Merissa (Archaeolibrarian) says

I received this book by signing up for Celia Kyle's newsletter on her website.

OK, so the first thing I'll mention is the cover - this is supposed to be a BBW book but the woman/girl on the cover is anything but. Aside from that though I enjoyed this quick but steamy novella.

It starts with Lyla running and as she runs, you find out why (sort of). She runs smack into Michael who is able to protect her. To be honest, out of the books I got free for signing up for her newsletter, this is the one I liked the least because there is very little storyline and the ending was there before you knew it. I like the idea of this book but felt that it just didn't last long enough.

One thing I will say is that I LOVED that Lyla was a Weremutt, also known as a Wusky! I thought that little snippet was inspired and it made me smile every time I read it.

Melissa Bell says

I got this ebook as a gift for signing up to Celia Kyle's new release news letter. I thoroughly enjoyed it as a quick read and would recommend it for lovers of Paranormal Romance. It was Hot, Fast and Hard.

Miranda Whore says

More shifter goodness for this book whore!

I'm a little obsessed with these short shifter novellas. Celia Kyle will be a great addition to the authors I binge on for this little guilty pleasure of mine.

Three stars and Three wet panties.

Review by Miranda at Mommy's a Book Whore.

Never Stop Reading or Dreaming says

Lyla was awesome here. First off it's so refreshing for the woman to save the day and be super dominant. Plus she was down right hilarious most of the time. I'm super glad I got to read this and really thankful for Celia! This was well worth it!

Suzan says

This was a short sexy read and I enjoyed it from start to finish! I really liked the characters and being short it was fast paced with a lot of action packed in!
