Undone, Volume 2

Callie Harper

Undone, Volume 2 Callie Harper

It's image rehab, plain and simple. A month of fake romance to convince the press that bad boy rocker Ash Black has fallen for a good girl librarian. It should be easy. It's anything but.

Ash

New York City. Vegas. Paris. A whirlwind tour for our whirlwind romance, every step, smile and kiss photographed from every angle. It's all going according to plan, rehabbing my bad boy rock star image by falling hard for a sweet, wholesome librarian.

There are all kinds of reasons to keep my hands off her. The no-sex clause in our contract. Paparazzi around every corner. She doesn't trust me because she thinks I'm a player, and she's right.

But I'm done playing by the rules. I'm rock star Ash Black and I've never been good at doing what other people tell me. I'm done mugging for the cameras.

I want her alone, all to myself, where the only rules are the ones I dictate. When it's just us, there'll be nothing fake about her begging me to let her come. I'm a musician, baby, and believe me, I'm going to savor the sound of her every pant, gasp and moan.

Ana

It's just a show, a month-long façade. I need to keep my head in the game, my heart under wraps and my body out of reach of his wickedly talented hands.

He's not making it easy for me. Every time I watch him perform, I go weak in the knees. Every time he romances me over a candlelight dinner, I melt. And the few moments he's caught me alone, he's started a fire in me unlike anything I've ever felt before. It's roaring, licking, burning me up.

I'm not good at pretending. And with the heat he's building in me, I'm not sure how long I'm going to last. One month can feel like forever when you're so close to exactly what you want but not allowed to touch it. Sooner or later, a girl has to reach out and touch.

NOTE: Undone is a three-volume hot adult romance. It's the second story in the Beg for It series about the dominant, alpha males in Ash's family and the strong, sexy women who make them finally meet their match.

Love this series

Ash and Ana are fantastic. I'm enjoying this series more than any I have in a while. I'm a huge sucker for rocker romances, this one truly fits the bill. Hot, sweet and a great premise. Rocker and sweet librarian. Straight on to book three! Can't wait to see how it goes.

A Book Lover's Emporium Book Blog says

I was so very glad to be able to jump straight into this after reading book 1 and now I will say I am on the edge waiting for book 3! I am loving this series. I finished this earlier today and I've not stopped thinking about it!

As I thought, I do love Ash Black. You just can't help but love him, and he is hot hot hot! He is a smooth, dirty talking rock star! Did I mention he was HOT?!

I also love Ana (Anika), she is sweet and innocent, well that was until she got involved with Ash! With Ash's reputation being dragged through the dirt because of his famous ex girlfriend setting him up to look like a complete B#@&*^d. He makes a one month arrangement with Ana, in return he has to pay to save the Library she works in from being closed down.

A simple arrangement -Ana pretends to be his girlfriend for one month, to then publicly dump him. This apparently will restore his reputation according to Ash's pa and team.

This is far from a simple arrangement, especially when the attraction between the two is undeniable. Each telling themselves it's just pretend!

I really can not wait for book 3 in fact, I actually need it!! This ended on a little bit of a cliffhanger, my heart was in my mouth and my stomach in knots! I definitely recommend this series. I am giving this 5 + stars.

Char Sowers says

This second installment of Callie Harper's Undone serial is even better than the first one - it's hotter, more romantic and lots edgier. In "Undone Vol. 2" the contract has been drawn up and the manager, lawyer and the PR Team are on full alert especially rabid about Ash's "Image Rehab" itinerary and the perfection of their picture perfect photo ops. But whenever Ash and Ana are together their chemistry consumes them and they are overcome by their passions., even at Ash's Family traditional, and huge, Christmas Party. Ash's band co-founder, Conner, is also a new issue, and sticking point in this episode. But the ruse starts to feel as though it's becoming real to both Ash and Ana, as each are feeling an overwhelming attraction to the other.

Individually, they think that the other is merely playing their part, while they are feeling that what they have might actually be feeling something special. And vice-versa. This part of the serial hops all over the world, with Ana following Ash on tour and back to New York for Christmas. Then, because Ash feels like it's he and Ana against the PR side of the "team", they escape the day after Christmas and go rogue to Paris. This second part of the serial has a lot of meat to it: threats, some angst, and serious passion and romance. The Sex in "Undone Vol. 2" seems to get a "steroid juiced" jolt which rockets off the e-reader page. Hopefully, you bought the flame resistant e-reader cover.

No lie, "Undone Vol. 2" is riveting, enchanting, and more than passionate. Callie Harper has created two engaging main characters and put them in an almost impossible situation surrounded by opportunistic vipers.

Ash and Ana's desire is an untamed craving that they cannot satisfy once it is unleashed. Ash has opened up a sexually wild side in Ana that she never knew she had. Ana exposes Ash to some simple and thoughtful gestures that he's never received before. Ash has definitely never met any one like Ana before, someone who truly wants nothing from him and is willing to open herself up to him. For Ana, Ash shows her a side of him that few people ever see - except maybe his Grandmother. A side that doesn't care about partying or seeking attention - a side that appreciates older music and thoughtful gestures rather than big gaudy expensive gifts. The question is what will be the journey Callie Harper will take these characters on in order for them to grow enough to take control of their own lives and love?

Sabrina says

So our month begins!! We start with the annual Kavanaugh holiday party, a black tie event. What is the first thing you do in a fake relationship, meet his family of course!! Volume 2 in the Undone series does not disappoint. Callie Harper knows how to write a story to keep us wanting more.

Ash and Ana are getting to know each other. They spend their time posing for the right pictures with the right angles. The right kisses and the right smiles all have to be staged perfectly. Ash still has his fun with Ana the only way he knows how, with her panting and screaming in ecstasy. He tells himself it's all fun and part of the game. Ash's team is doing a fantastic job portraying their fake love story. What they do not know about is the real love story going on behind closed doors. Ash steals a kiss when it's not staged, meets the roommates and even spends the holiday with her family. Does that sound fake to you? We watch these opposites attract, and Ash change from the rock star god playboy, to the god who wants to spend more time with Ana alone, away from the public eye. So what does he do, takes her to Paris. What do Ash and Ana do, cross a line that was not supposed to be crossed, that was signed in the NDA contract.

Again we have alternating POV between Ash and Ana while we follow the journey they take to find love. Volume 2 keeps you wanting more and more. I read the Unleashed series and enjoyed it, but I love this series so much more. I feel I can fall in love with the characters like the author wants us too. Volume 1 and 2 come out together on the same day, with Volume 3 a few weeks later, and now I know why, holy cliffhanger. I was not expecting that ending and I cannot wait to find out what happens next. Where is Volume 3, because I need to now!!!!!!!

It's image rehab, plain and simple. A month of fake romance to convince the press that bad boy rocker Ash Black has fallen for a good girl librarian. It should be easy. It's anything but.

Ash

New York City. Vegas. Paris. A whirlwind tour for our whirlwind romance, every step, smile and kiss photographed from every angle. It's all going according to plan, rehabbing my bad boy rock star image by falling hard for a sweet, wholesome librarian.

There are all kinds of reasons to keep my hands off her. The no-sex clause in our contract.

Paparazzi around every corner. She doesn't trust me because she thinks I'm a player, and she's right.

But I'm done playing by the rules. I'm rock star Ash Black and I've never been good at doing what other people tell me. I'm done mugging for the cameras.

I want her alone, all to myself, where the only rules are the ones I dictate. When it's just us, there'll be nothing fake about her begging me to let her come. I'm a musician, baby, and believe me, I'm going to savor the sound of her every pant, gasp and moan.

Ana

It's just a show, a month-long façade. I need to keep my head in the game, my heart under wraps and my body out of reach of his wickedly talented hands.

He's not making it easy for me. Every time I watch him perform, I go weak in the knees. Every time he romances me over a candlelight dinner, I melt. And the few moments he's caught me alone, he's started a fire in me unlike anything I've ever felt before. It's roaring, licking, burning me up.

I'm not good at pretending. And with the heat he's building in me, I'm not sure how long I'm going to last. One month can feel like forever when you're so close to exactly what you want but not allowed to touch it. Sooner or later, a girl has to reach out and touch.

“But then Ash brought his hands to my waist, pressing up against me, moving with me to the rhythm and beat. How could I worry with the feel of him in the darkness, the smell of him right there next to me, so close but not close enough?”

5 Rock God Stars!!! I can't seem to get enough of Ash!!

What else can I say about Ash..... he's beyond sexy and he's a determined man. He knows what he wants and he's going to get Ana no matter what. He wants to prove to Ana that she can trust him, even though his rep as the bad boy rocker seems to be in the way. Ana can't deny the feelings she has for Ash, but how long can she hold out before she gives it up??

I'm addicted to this series and to Ash Black!! I can't wait to see what happens in the final installment but I'm sad to see it will be over!!!

Dani says

Another 4 stars for Ash and Ana!

In book two we follow the couple on their 'romance' and it is scorching! The ultimate plan is to get Ash back in the good graces of his fans and the rest of the country. There are two parts to their relationship, the one they portray on camera, and the page melting off camera romance.

When Ash's ex doesn't relent with her attack on the bad boy. We follow the roller coaster that is their romance and amongst the angst, drama, and the scorching scenes, we see that the bad boy rock star has a soft spot. The only problem with pretending is that you never know when the other person is really feeling something or not.

I NEED book three now!! This one ends in a cliff hanger and I am on the edge of my seat to see where it goes. Callie has done a great job with Ash and Ana's story!

Alyse says

I had the best of intentions to have this review AND my review for Volume 3 up early last week... But you know what happens with the best of intentions...

Life decides to show up and give you a swift kick in the ass.

Firstly, the townhouse where we are living sold. So we have to find a place to live and pack in less than 3 months (A whole stressful journey in and of itself) . We've had inspections the last two weeks. One inspection came back with high levels of Radon. What is Radon you ask...?? I didn't know either, but apparently it is a naturally accruing gas, that at high levels and prolonged exposure, can cause cancer. YAY!!! =/ So for two days my husband and I were trying to figure out if it was safe for all of us to even stay here. People told us that a few days won't make a difference, and to just spend most of our time upstairs.

We will have people in our home ALL day Monday "treating" it.

Secondly, our 8 year old cat, Hera seems to have some sort of kidney/bladder problem. We woke up to her PEEING anywhere and everywhere BUT her cat litter box. If you have never had to smell cat pee, consider yourself lucky. But on top of peeing on anything, there is some serious blood in her urine (which freaked me out)! So several hundred dollars have been spent at the vets in the last week and a half. (Her blood results SHOULD be back on Monday). My poor girl is locked in our spare bathroom so she doesn't ruin our whole

place.

AND on top of all of that, I can't sleep. For real. I don't/can't fall asleep until like 3 am. Doesn't matter how tired I am, lights on/off, t.v. on/off, reading on/off. It's rather frustrating. So I've been a walking/talking zombie amongst the chaos.

Okay, sorry that turned into more than I expected...

Onto the review!!

Undone: Volume 2 starts RIGHT where Volume: 1 ends. Ash has gotten Ana to agree to a fake month long romance, where at the end she will "break his heart". And once Ana agrees, there is a whirlwind tour of their "epic" romance.

As we follow Ash and Ana on their worldwide romance tour, we begin to see that their is more to these characters than meets the eye. We see the pressures and expectations that are on the shoulders of Ash, and we learn that there is so much more to Ana than just being a librarian. These two start to open up to each other about life away from the spotlight and what they each want out of their lives.

But what happens when playing pretend no longer feels like a game? Ash wants Ana all to himself, but he can feel her pulling away as the reality that is his life starts to invade hers. What started out as an image rehab for rock star Ash Black is beginning to turn into so much more.

Their time is together is being to run out. Can Ash show her that their time together doesn't have to end when their time runs out?

Undone: Volume 3 review coming soon!!!

Rating: 4.5 out of 5

Stacey says

Yet again I have been sucked into the world of Ash Black and Anika Ivanov. This is where their story really heats up and intensifies.

Ana begins to question just what she got herself into?! She questions whether she belongs in his world, all the while trying to remember that this is just a temporary arrangement and not to get too attached. Eventually real feelings become involved and lines begin to blur. When they are by themselves, she begins to believe that he is someone she could spend the rest of her life with. But when they are around certain people and in

situations, she questions whether or not that scene and that world is something she could get use to.

Initially, Ash was quite attentive at his family's party but once she gets to L.A. and full immersed into his world, things seemed to change and he gets a little more distant. She's different from everyone else he's ever been with. Ash is used to being surrounded by "yes men" and getting away with whatever he wants, being the Mega Rockstar that he is. He eventually starts to question whether or not that is the life he wants any more. He's starting to realize this may not be all there is to life. This arrangement initially started as a rehab mission for his image, while trying to get into Ana's pants, but can Ash keep emotions out of the equation?! You can see he's starting to feel guilty for bringing Ana into his crazy f@&ked up world and now all he wants to do is protect her from the craziness of his world.

This one is way more emotional and in depth, this is where you fall in love with Ash and Ana. The build up of their relationship is everything I have come to expect from Callie Harper. She has this great ability to build up the sexual tension, so that you, the reader, are just as heady as the characters. Again Callie leaves you hanging, wondering just what some of characters are up to, Connor for example! Connor is Ash's best friend and band mate. But I honestly have a bad feeling about this guy! What kind of trouble is he going to cause for them!? He's a 10 on my creepy scale!

I can't wait to find out what the future has in store for Ash and Ana and what obstacles they'll have to overcome!

Christy McCurry says

I am so over the moon about this series. Callie Harper has done it again. I am completely hooked. This has been one hot bundle of emotions, and anticipation. I am so head over heels in love with these characters. Who doesn't like a dirty talking rock star?

Ash and Ana's story picks up right where we left off. As a PR stunt to repair Ash's image, Ana has agreed to be Ash's girlfriend for one month, then publicly break it off with him. In return Ash funds the Library Ana works for to prevent it from being closed down. Easy enough. Right? What happens when pretend turns into real?

I am so happy this book was much longer than the first one because I just cannot seem to get enough of Ash and Ana. I can not wait to see what Callie Harper has in store for the next volume in this series.

This series is a must read.

? Jeri's Book Attic ? the Romance Bibliophile ? says

REVIEW VOLUME 1 + 2 + 3 .

Let me once again state clearly that I am not a fan of books that are cut in pieces – a series with cliffhangers is bad enough but cutting a good book into novellas is not the way to go for me – having said my piece about that let me get to my thoughts about the story.

After reading all 3 parts of this novel I would like to give my final thoughts.

I am still keeping my opinion that on opening an encyclopedia and check under “smug” you should probably find a picture of “Ash” ... the newest leading character in Callie Harper’s book “Undone”. He is so cocky it borders on annoying – but only borders... as he is also kind of endearing so far once you manage to ignore his attitude.

I said “Lets wait how he develops later in the next part” when I read the first part – and I was right on that account

It’s pretty easy being a rock god. Party. Perform. P*ssy. Repeat.##

That was his “mantra” for a long time in his life – but during the developing story you could notice that he was starting to have doubts about his lifestyle. And even if he was kind of annoying in the beginning the story relays his changes at an (for a book) believable pace.

My opinion on Ana remained the same – she is a Liberian in so many ways, that you actually believe her part – but – then on the other hand she is totally not the “geek” or “nerd” or whatever you would have expected her to be... yes I guess.

##Unicorn## is a good word for her.

But you also notice how her thoughts change. She basically goes through the full range of emotions. And that was a really well written piece.

The plot itself is not unique but the characters make reading it very enjoyable. Strangely I liked Ana more than Ash – which is really unusual for me. The writing was good and the characters were likable so I enjoyed the book when finally all parts were available.

Nance says

Review to be written soon...

Tiffany Readz says

This Ash is Much Better!

Okay, now here's an Ash that a girl can fall for. Sure he still has some of that alpa going on, but we are getting more feelings out of the guy. Not just the "I'm a rockstar, fall at my feet attitude." This review may spoil volume one.

Ash and Ana have been playing the parts for a few weeks now and the feelings are starting to get real for both of them. Ash likes how different Ana is from the groupies and stars he's known to be with. Ash is everything Ana thought he was and more. She sees the man behind the rock star facade and can't get enough of him. Contract be damned.

"I closed my eyes, took a deep breath and tried to prepare myself for the wildest ride I'd ever been on." ~ Ana

Here we go. The ruse is in full effect. Ash and Ana photographed all over New York, putting it on for the paparazzi. The plan is working swimmingly, however as we follow along the feelings are getting more real.

"I'd been starting to feel like I was getting to know him, like we were connecting in some kind of a real way apart from his crazy celebrity reality." ~ Ana

Danger. Ana is getting too involved, too fast. This is going to go all kinds of bad and I didn't want to keep reading. Until then, they get to trek off to Paris for the most romantic few days where they get very hot and heavy. And as sexy as volume one was, volume two was even better! Ash definitely started to grow on me this time around.

"Not for the first time in the past few weeks, I found myself wondering, was all the fame worth it? Because right now, it didn't feel that way." ~ Ash

He's changing and for the better, I'd say. At twenty-nine Ash is finally starting to realize there is more to life than being a rock star with a different woman every night. I knew he would come around, however Callie Harper then swooped in and wrecked everything.

The book is well written and if you are familiar with this author's work, you know she likes to leave her readers screaming at her for the next book because of the endings. Volume two is exactly that. One step forward and twenty back. I'll be patiently waiting for the next one.

Reviewed for Renee Entress's Blog.

Pea says

Book 2 continues exactly where book 1 finished...

Ana is debating with herself about the fake relationship with Ash.

All those reservations and concerns waiting on the sidelines, offering reasons A-Z why this arrangement with Ash was a very, very bad idea would all start clamoring for the mic. He's a jerk! You're going to hate having every second of your life photographed! How are you going to explain this to your parents? And, most challenging of them all, how did I expect to spend an intimate month with him without anything like what had happened last night happening again?

The way she "introduces" Ash to her family is so hilarious. Russians are similar to Bosnians :)

“I did have a nice date last night.”

“You did? Tell me! Was it that boy you just met? What kind of a family is he from?”

“I met his grandmother at a family gettogether last night.” That seemed a good lead-in.

“She was very friendly. She asked me to have tea with her next week.”

“A boy who respects his grandmother is a good boy.” Ash Black was not a good boy. “Is he Russian?”

“No, his grandmother’s British.” Royalty, at least it seemed to me.

“That’s too bad. What does he do for a living?”

“He’s a musician.”

“Piano?” She assumed he was a classical performer. “He’s ah...He’s a vocalist. And a string instrumentalist.” Translation: leather-pants-wearing, shirtless, tattooed rock god.

This was complicated. I wanted my parents to like him enough to not panic, but not like him enough to start working on the wedding invitations.

But even though the relationship is fake, the feeling aren't.

Ending it would probably be the smart thing to do, because I’d never felt so confused in all my life. I’d always trusted my instincts with people, but now my wires were all crossed. What we had between us felt so real to me, but maybe it was all fake for him? A public performance he extended into his private bedroom.

And Ash is a rock star to the core.

She might be an angel, but I was all sinner.

The story is a little bit predictable but nevertheless I enjoy it and I'm looking forward for Undone, Volume 3. I'm a little frustrated because I didn't realise that the whole series isn't published yet but I have only a few days to wait till book 3 is live.

Wit & Wonder Books says

**** ARC provided by the author for an honest review ****

What happens when what you thought was just for show .. a means to an end .. starts to become something so much deeper than you ever expected? When feelings get fuzzy and lines crossed .. what will become of this couple?

We follow Ash and Ana on their "love affair" that will ultimately get him back on the most wanted listed. Their relationship off camera is hot, sexy and off the charts. I was blushing and fanning myself half the time!!

We get to see more the world this Rock Star lives and understand exactly what the pressures and demands are really like for him on stage and off. They start opening themselves up in ways neither one of them expected. A little bit of drama, a little bit of angst and whole lotta loving, Volume 2 is sure to set your kindle on fire!

Ash is evolving in more ways than one, but what happens when his reality starts invading the careful life Ana has lead. Has what she always said since the beginning .. not being made out for his world finally be what drives them apart ?

Time is running out and soon the facade will end .. but is Ash ready to give it up and is Ana strong enough to stick around?

I can't WAIT for part three!

Stephanie says

Whoa! I thought book one had a cliffhanger!! I cannot wait for book 3 to come out!

This continues the story of Ash and Ana. At the end of the first book, Ash is trying to rehab his image which took a big hit when he broke up with the country's beloved Mandy, American Idol winner. His plan to "woo" a simple, wholesome girl, enter Librarian Ana, propose to her on New Year's Eve and have her dump him 10 days later.

Ana reluctantly agrees and begins the charade. But as things start to happen, they both seem to be thinking more about each other in terms of how they really feel about each other.

Uh oh. I was in trouble. Big trouble. I knew right then and there, I'd have to avoid seeing him on stage. Like kryptonite with a mic in his hand, his voice working magic, his whole persona larger than life and sexy as hell. Those smoldering eyes, that lean, muscular frame, he was already dangerous enough. But once he became the lead singer? Forget about it.

I wanted to stay right there in the dark with her, where I knew it was real. And where I didn't have to think about the inevitable end to all of this, when Ana would brutally stomp on my heart and leave me forever. Had I thought that sounded like a great idea a week ago? One of us was crazy, either that Ash or this Ash, standing and holding Ana like my life depended on it. Either way, only one of use could make it out of this mess. I didn't know which one it would be.

And in a crazy New Year's Eve party following Ash's proposal, Ana starts to question whether she can actually deal with the craziness that comes with Ash's life. Ash gets pulled away for a moment and enter Connor, Ash's bandmate and friend, who seems to cause problems with Ana whenever he is around, and you have one heck of a cliffhanger.

Right on cue, Connor appeared at my side. More like rubbed against it.

"There she is," he leered, double-fisting a pair of drinks. "How's my girl?"

"Oh, now I'm your girl?" I had to ask. "I thought I was Yoko Ono."

This has been a great series so far and I cannot wait to jump back into the story and see what happens. I highly recommend!
