Sparks of Darkness (Birthright #2) Barry Ahern

For centuries the bloody hands of Dhoranka, a death hungry warlord with the power over earth, water, and fire, have terrorized mankind. Battling his savagery stood the Oranthium, an ancient secret order determined to crush the ugly face of evil. Finally, news breaks that Dhoranka has been killed, but under the most mysterious circumstances, as no body was ever recovered. Years later, with balance restored, a young boy emerges in the Oranthium with Dhoranka's power. They decide to send him on his first mission to the World of Laughter. It is a test of power and virtue. Without power, evil will destroy him. Without virtue, the Oranthium must kill him. His true nature will decide his fate.

This blew my mind !! It was better than the first book, it was deeper and getting to understand the Oranthium better was awesome. Storyline excellent, not predicable and the worlds really special. Loved this book.

Heather Merritt says

Great book

Was a fantastic book, could have continued reading the book all day, page turner. Has a great story line to it.

Madison Edwards says

Excellent read - seeing the school was Harry Potterish, minus the magic, plus the magic powers.

Chris says

Awesome.. The Oranthium was mega, and the twist at the end was not what I was expecting. I really liked this book, book 3 couldn't come fast enough !!

Carrie Poskon says

There is a real flavor of Harry Potter/The Guardians (cartoon movie.. loved it) at its core when the Viscents arrive at the Oranthium. They are split up with a certain logic and trained so they can best use their Abasors and become guardians. It was done well.. Marked it down a notch as felt some of it was a bit confusing, there seemed a lot of plots and powers.. I got it.. but it required a bit of thinking in my leisure reading time
