Soldier of Fortune

Barry Sadler

Soldier of Fortune Barry Sadler

When Major Shan of Taiwanese military intelligence is contracted to rescue a merchant family from the jungles of Cambodia, he selects Casca—aka Casey Romain—to do the job. Always waiting for the next inevitable battle, Casey decides to take the offer even though this mission might be his last. In order to even the odds a little, Casey enlists the aid of three friends: a former South Viet soldier named Van, a mountain tribesman known as George, and Phang, a Kamserai bandit familiar with the deadly Cambodian jungles. Together, this rugged and determined band of soldiers race against time and the natural dangers of the jungle to find the family...while a small, but savage Cambodian army led by a ruthless general races after them.

Eric says

Just as bad as the others

This is book 8 in the series, and it's bad. Thin characters, predictable plots, and a surprising (or not, considering its vintage) amount of both racism and sexism.

Mark C. Jackson says

I enjoyed this! It was also nice to read something in the 20th century in order to see Casca embrace the nuances of a "modern world." Can't wait to read the next book!

Timothy Boyd says

So you just a soldier doing your job. You shove a spear tip into the side of this supposed messiah, except he is the real thing. He curses you to wander the earth till his return. Not bad right, immortality and all. Oh but he also curses you to be a soldier forever at war, never to know peace. This is the story of Casca the Roman legionnaire that stabbed Christ. Forever wandering the earth fighting one war after another. Great adventure series. Very recommended

Robert Mills says

Immortal warrior

Barry Sadler was a SF soldier who became famous for the ballad of the green beret. I love reading the adventure of the forever mercenary.

Nicholas says

Not too much to say about this one. It mostly follows the formula, except in this one, what seems like the author's personal experiences *really* come through. And Casca seems a little more dickish than in his first couple of centuries.

Chris says

Typical of the series, Soldier of Fortune sticks to formula and provides a similar, though better better story than Rambo: First Blood Part II. While I did enjoy the book, it was not one of the best of the series.

David says

Action-packed with plenty of twists to keep you interested.
