**Happily Ever After** Tanya Anne Crosby  
A Girlhood Dream

Sophia Vanderwahl had always dreamed a knight in shining armor would sweep her off her feet, but she knew this only happened in fairy tales. And when she discovers the truth about her philandering fiance, she decides to track the scoundrel down and confront him in person. So she hires adventurer Jack MacAuley to help her find her neglectful husband-to-be. But with every glimpse into Jack's seductive eyes, every tremor she feels at the sound of his voice, she finds her memory of her fiance fading away ...A Woman's Love

When the headstrong heiress offers him a king's ransom to find her long-absent intended, rugged Jack MacAuley figures it will be easy money. But nothing is easy when it comes to this willful beauty with the golden eyes and kissable lips, and soon he can't help but think of delicious ways to make her forget her promises to anyone else ... and to believe that happily-ever-afters really can come true.

## From Reader Review Happily Ever After for online ebook

### AnnMarie says

This book is so beautiful. I love how the heroine learns to stand up for herself and in the mean time falls in love with the man of her dreams. A perfect romance, with a lot of laughs, and of course, the much needed happy ending. I love all of Tanya's books.

---

### Mary B. says

Heroine exceedingly annoying. Hero kinda skeezy and creepy. Made it 35% before skimming the rest.

---

### Maqluba says

Oh man this book was cliché-galore! From unnecessary misunderstandings to crazy jealousy to accident-prone heroine to inappropriately angry hero to close living spaces to sleazy ex (or soon to be here)... But it all works! I can't say I got annoyed with any of them because the author made it work and made it fun in the process. I liked Sophie's rants because you get to see her finally speak her mind and really break from the perfect-girl phase. I laughed a few times throughout and to me if an author can grab my attention and make me laugh then it's an automatic 5 stars unless they totally eff something up then I 4-star it. Just a few small things to pick at-- I thought some of the inner thoughts were a little repetitive and the fact that we went from seeing her as a wild child and then to a wild adult without seeing much of her perfect phase left us just taking the heroine at her word that she was perfect rather than us seeing it. Although her saying 'oh my!' did give me a glimpse into how she handles things lol.

I'll def have to look up other things by this author! I recommend this for anyone looking for a fun, love during a sea adventure, with a saucy rich girl and a dashing totally non-geeky anthropologist:)

---

### Becky says

So apparently this is the third book in this series but as told all books can be standalone. Well let me tell you if I had read the first two prior and they were as bad as this one, I never would have read this book!

Immature, unbelievable, disaster at every turn and no real communication between the H/h until the end makes this book barely a 2 star read! I hated Sophie! I know hate is a strong word but with this character it is called for! She mentions wanting to be like the boys and following her dreams (which gave me hope for her character) then in the next paragraphs back to her spoiled, pampered brat of a person!! Add in zero reality, I mean it's 1899 no female goes off on her own, on a ship full of men only female, sleeps in the captain's cabin (with only sheets dividing them), then sleeps with said captain and says oh well I'll never marry anyway it's all good. What, I mean WTF!?! do you know this era at all?!?

I've read other books by this author and I don't recall having this strong a dislike to one of her books, so I'll give another series at another time a chance. Just not anytime soon!

### **Pansy says**

I read this in the Three Redeemable Rogues collection. I note it here because I was not enamored with this story and am not sure I want to continue reading the other two in the collection.

Happily Ever After had potential. I really wanted to fall in love with it. Sophia was likable. Her fiance, not so much. The "rogue"? How can you not love a rogue. He really wasn't a rogue though. Just misunderstood. Yep! That is what I said. Poor little rich girl. Slezoid antagonist. Misunderstood hero. Rather cliched and predictable. I got a bit of eyestrain from all the eye-rolling. There was just enough here to keep me reading, but does not inspire continuing with the collection.

### **Barbara R. Cady says**

#### **Another hit**

I just love Tanya's stories. This book was full of humor, love and great characters. I have read several of her books and as usual, this one did not disappoint.

---

### **Debby Settle says**

#### **Loved it**

Wonderful love story. One of those where they meet and rub each other the wrong way, then things change. It's a love story.

---

### **Robbie Bauldree says**

I enjoyed this book very much. It is about a young woman who learns that her fiance does not really love her only using her to get grant money for an expedition. This is her story about reclaiming her life and finding new love.

---

### **Phil Ellenberger says**

#### **Good story**

The coming of age story of a young woman set in an interesting plot is well told. Tcharacters are well drawn. Fortunately the detailed sensuous physical encounter frequently found in romance stories can either be enjoyed or skipped. They are not the who!e story.

AUDIOBOOK edition

I enjoyed listening to Mr. Wright perform this awesome story. I love his voices, the passion with which he brings the characters and story to life. My fave was Jack's voice. YUM - 5 stars

Ms. Crosby really knows how to make a story shine. Historicals are not my first go-to genre, but the way the author portrays heroines that do not conform to the norm is very much to my liking and I liked Sophie despite her being a disaster magnet, she cracked me up with her reactions. The chemistry between her and Jack was palpable and once they gave in, it was magic. Ending with an HEA, my fave kind, left me giddy, a 5-star experience for sure.

## **Darcy Weber says**

### **Trusting your love**

What do you do when you find that the man you THOUGHT you loved had never loved you? He was never faithful, and didn't plan returning to you? Why, you go after him, of course. And that's just what this young lady did, finding her heart, and love along the way. Riveting example of what Tanya Ann Crosby is capable of turning out.

---

## **Terr says**

Great story!!! I was hoping the h would eventually become a better cook. I am glad the cad got what he deserved. The love scenes were hot. I am glad to see a female lead taking charge of her life and seeing to her happy ending.

---

## **IrishAmber says**

### **Stars don't come cheap by me!**

I really enjoyed this. The characters were fun and the plot entertaining. Any book that primarily involves romance genre that can still be entertaining enough to make me laugh that hard aloud, is well worth a five star rating. And boy did I laugh! The heroin has an uncanny way of flustering, to horrendous disasters in the wake of her hero. At one point, I'm shaking my head and telling the girl in the book to just stay in her room and not to touch anything. But yet, so entertaining that it works, and the reader will be forced to laugh aloud. The main characters are intriguing, few secondary characters, but still likeable, and the villain is down right loathsome. Well worth a read! I really love when an author can write a good romance, while adding truly enduring (yes, the ones that will be remembered) comical scenes. Austen always wrenches my heart, and at the same time makes me giggle like a school girl. I use those feelings in comparison to whatever I'm currently reading. I weigh the result of how I feel when I've finished, to the worth of reading the book.

## **Romanticamente Fantasy says**

Anche se i romanzi storici non sono tra i miei preferiti, quest'opera è stata un'eccezione.

La protagonista, Sophia, nonostante l'epoca, è una ragazza indipendente e non vuole che il proprio orgoglio venga calpestato. Sin dalle prime pagine si capisce che non si fa prendere dallo sconforto, anzi, reagisce alle avversità con intelligenza e non si muove (a modo suo....) solo con l'istinto, anche se spesso i risultati non sono quelli sperati.

Jack, oltre a diventare l'uomo dei sogni della maggior parte delle future lettrici, e' un ragazzo che segue il proprio istinto, ma quando si tratta di Sophia lascia un poco a desiderare! Col tempo ha creato su di sé una sorta di barriera che lo ha portato a non fidarsi più di nessuno, figurarsi di una rampolla dell'alta società, la stessa che non ha voluto finanziare i suoi studi a causa del fidanzato e del padre di lei!

Jack scoprirà ben presto che nonostante tutti gli sforzi, dovrà abituarsi alla presenza di Sophia.

Una delle pecche, a mio avviso, sono le descrizioni introspettive dei personaggi, in particolar modo quelle della protagonista. Le ho trovate talvolta pesanti e ripetitive. Il fidanzato Harlan non viene preso in considerazione se non per il motivo della partenza di Sophia. Ogni volta che viene citato e' quando fa il dongiovanni con le donne del posto! Ultimo punto a sfavore e' il finale che a parer mio e' stato scritto frettolosamente; nel senso che potevano essere descritte altre situazioni a completamento del racconto; mi aspettavo qualcosa di meglio e con un po' più di suspense. La sposa di Mc Auley e' comunque un libro che consiglio di leggere sia per la storia che per le scene divertenti per le quali ho riso quasi a crepapelle. Ci sono delle discussioni tra i due protagonisti a suon di doppi sensi che sono a dir poco esilaranti. Alcune scene mi hanno rapito per quanto la scrittrice le abbia descritte in modo impeccabile, ma d'altronde Tanya Anne Crosby è una garanzia.
