His Big Offer Penny Wylder

Steady career. Apartment in the heart of downtown. Sleeps with an adorable poodle.

If you read all that you'd think I was living the dream.

But I've got a secret-- my life is a wreck.

My "steady" career is running a barely read blog. The apartment? That belongs to my friend. At least the dog is real... but I wasn't joking, I literally share the couch with her.

That's why, when I read the offer in my email to start writing for a company called Heart Makers, I hurried in for the interview. Wish I'd done my research.

You see, Heart Makers is owned by the hottest slice of man-cake I've ever sat three feet away from. Chance Montgomery... my new boss.

If him making me all tingly and awkward wasn't bad enough, the articles he wants me to write are. How can I write dirty dating advice and keep my cool around this man?

But I need this job. The opportunity is too big to lose.

What happens when our chemistry finally explodes...

And he offers me something even bigger?

I did enjoy this but something seemed to be missing. I think the story would have felt fuller and more rounded if it had the male character point of view as well.

Shelbee says

"His Big Offer" is most definitely a good read. I really enjoyed the beginning of each chapter and how it gave a bit of an insight as to what Caroline's character writes about in her blogs and articles. She has had a fair share of bad luck when it comes to holding a job and dating. So when Caroline receives an email about a job offer out of the blue she becomes very intrigued for the opportunity. Of course she would be crazy if she doesn't at least try to give it a shot, Right?! To her surprise it's for a dating service company called The Heart Makers. When she attends the interview she finds out that it's a job for writing articles about dating, sex, and relationships. She never could have imagined an amazing opportunity like the one offered to her, doing exactly what she loves most. She is just an average girl that hit a hard time in her life and sleeps on her best friend's couch because she can't afford a place of her own. Everything seems so surreal to her at first. Then on top of the offer of a lifetime, she is also finding it very hard not to notice how extremely attractive the C.E.O. named Chance Montgomery is. Turns out he is a fan of the blogs she writes hints why he sought her out from the beginning. They have an instant connection, and no matter how much they try to ignore the fire between them, they can't help but fall for each other hard and fast.. Let's just say Chace is very well off and I'm not talking about his bank account. I'm talking about his... Yup! Not only is he really BIG, but he also has a surprise attached to it. Although it was a bit short, I felt like it was detailed perfectly. I would have only hoped it to be longer and there to be a little more drama when certain things played out in the story. Overall it's a well deserved 4.5 stars. Check it out for yourself. I'm sure you will enjoy it like I did! As always Penny Wylder you did it again!! Keep up the amazing work!

Okay read

I did enjoy this but something seemed to be missing. I think the story would have felt fuller and more rounded if it had the male character point of view as well.

I just loved this story. An amazing short story about Caroline, who has her own blog about her dating life, or lack thereof. She has not been that lucky with her dates. She lives on her friend's couch and has no job. Suddenly one morning she gets an email with a job proposal she cannot refuse. Both main characters have to let go and let fate help them decide what to do. It is an enjoyable and very romantic read. Caroline is feisty and strong.

This story has a bit of everything. I like that. It is a romance love story and I liked it very much. Emotional

and loving story.

Well written story with a nice storyline and plot. I like that the characters and how they develop. A passionate and emotional read with twists.

I like it has an epilogue to finish of the story in a better way. There is passion, a few hot scenes and lots of chemistry in this amazing story. I would have liked it to be a bit longer.

I received a copy of this book and am voluntarily leaving a review.

ARC received in exchange for an honest review.

I actually liked this one a lot. Chance and Caroline are very easy people to like, some things are a bit cliché but that's exactly what we need from time to time.

I liked Carolines blog posts, they were light and fun.

If you know this author, you know this is a fantastic short steamy read!

Very quick read. Insta-everything. Caroline writes a blog and has been living on her friend's couch, while she tries to find a steady job. Chance reads her blog and thinks and thinks she would be a great fit at his company, a online dating website.

I enjoyed this. Like both characters.

Omg I loved Caroline and Chance . Caroline pretends to have a fabulous life but basically she unemployed, sleeping on her best friends sofa waking up to her friends poodles doggie breath is all the action she sees. She has a blog that is her only savings grace talking about her adventures in dating. But her life is starting to look up a new company called Heart Makers calls to offer her a job after finding her blog. She cant understand what she can do at a matchmaker but its a job. When she goes to the interview and meet the ceo Chance she shocked he is absolutely the hottest man ever. She knows she going to mess this up by sleeping with him. Chance gives her the perfect job writing articles for there site about dating. But there a chemistry between them but they both fight it. Cause chance doesn't date employees even though they all seem to know hes huge down below and pierced. But there connection is to strong will it work out or will Caroline bad luck catch up to her!

An absolute funny and entertaining romance

Ms. Wylder packs a lot of humor and sweetness in this instant-attraction office romance. Our quirky heroine, Caroline, is mostly unemployed, but excellent at blogging about her unsuccessful dates. Her faithful followers are right along for the ride, giving support and reassurance that Caroline is well equipped to handle any fakers, and in turn, she offers up dating tips. When she gets an email about writing for an upstart dating site, Caroline is absolutely stunned. It's her dream job.

Chance Montgomery, CEO of an upstart dating site hires Caroline to write articles on dating tips for their web page. He's enamored with Caroline's blog, Rock Bottom Caroline. She's funny, witty, and insightful and just the right person to headline the company. But when Chance meets Caroline, everything about her makes him want to break the company rules. There is instant attraction and lust. Chance is more than Caroline bargained for. When a rejected suitor from Caroline's past threatens her and the company, Chance is there to save the day. I loved the characters and the story. I just wished it could have been longer.

Loved the hero. He knew he wanted the heroine for more than just sex and didn't play any games.

Short and sweet novella with little drama and angst and a good amount of steam.

April Symes says

This was a great, fun, steamy insta-love read about two people who meet at just the right time and fall head over heels for one another. I really loved the heroine in this story-Caroline. She was determined, strong, sweet and a little sassy. She was a blogger who writes this online column about her dating life that has a small following which is her job while she looks for a real job to pay her bills. She gets a job offer out of the blue and that is where Chance comes in. He is the CEO of the company that is offering her a job. There is this instant chemistry, a connection between them. I loved how fast the story flowed and the heat zinged between them. There is an element of danger, of angst, of drama but it really was great to watch two people fall in love. I adored the ending – the only thing that maybe didn't work as well for me is that the ending felt a bit rushed. I would have liked for the ending to have been more natural and not rushed but overall, this was a great read. For Caroline and Chance's exciting and unique love story, you need to read Penny Wylder's latest.

My Rating: 4.5 stars *****

I was gifted this ARC by the author in exchange for my voluntary and honest review.

His Big Offer is an insta-lust, insta-love story from Penny Wylder. BUT it was unexpectedly and wonderfully a sweet romance too. Cassandra's and Chance's story gave me tingles in all the right places - from my mind, to my heart, and elsewhere.

Cassandra is a down on her luck blogger. She's looking for a job so she can get a place to live and looking for love too. She blogs about the bad dates she's been on. Her blogs are quirky, honest, and quite humorous. She's barely scraping by on her ad revenue. It's her blog that draws Chance's attention. He's the sexy CEO of a new matchmaking site. He and his board of directors wants her to write for them on a larger scale than her blog. Sparks fly when they meet. He breaks his own "no dating employees" rule for her. It was great reading about these two getting together and falling in love. There's a tiny bit of drama, suspense, and angst from someone Cassandra went on a date with in the past but Penny delivers her signature blazing hot intimacy and guaranteed HEA. I truly enjoyed His Big Offer and recommend it!

I've already forgotten it.

A cute, hot and steamy story with a storyline that will draw you in from the beginning. Chance is Caroline's hot boss at a matchmaking site. Their chemistry is sizzling right from the start and they both have a strong attraction. It's a quick read with lots of steam and great humor.

I voluntarily reviewed an advanced reader copy of this book.

2.5 stars.

This author writes a lot of sexy, smutty novellas with differing themes. Some I really enjoy but this one not so much. A little too cheesy and I didn't like the whole insta-love thing between the MC's here.

A quick KU read so no harm, no foul.?
