Bedroom Rodeo: A Billionaire Romance Sarah J. Brooks

My nanny puts my kids to bed. But now I want her in my bed...

In my billionaire empire, business always comes first.
But as a single dad, this is a real issue.
I have to be away for a while and I need help.
And that help is Summer Edwards, my new, gorgeous as sin nanny.
She takes great care of my kids, but I want her to take care of me too.
She makes my children happier than they've ever been.
And for that I want to make her happy.
So happy that she screams my name in ecstasy.
But will she let me? She only wants to stay for 30 days...

**** Buckle up, it's going to be a wild ride! This is a steamy STANDALONE contemporary romance with no cliffhanger, no cheating, and a guaranteed happily-ever-after. ****

Summary Paragraph:

Summer ditzy flighty spoiled rich girl whose income has been cut off has just lost her 7th job and rent is due. What is she to do?

Tyler needs a nanny fast.

>-< >-< >-< >-< >-< >-< >-< >-< >-< >-< >-< >-< >-<

What I liked/Didn't Like: Little slow in the beginning but once I got into it this book was great.

Tim kaskes says

This is a sucky book, if you want the rich, spoiled little girl to when this is a book to read so pampered

This is a book that basically puts, I spoiled, Rich child in a position to be spoiled and rich again with no consequences, no reason to even route for her, and no reason to even like her unless you like the mean, mean, high school girls to succeed!

Sharon says

What a surprise as the story is nothing that I expected based on the title and I just could not put it down.

Summer is a young, beautiful girl who comes from a wealthy family. Since she was a child, she never had to worry about money or work until her father decides to cut her off so she can learn the value of a dollar. Tyler is a single father and hardworking millionaire trying to do the best he can to juggle raising his two children and run his company along with his best friend.

Once again Summer has lost another job and is at her wits end with no means to pay her rent. Spending time at a gathering, a friend's boyfriend offers to get her an interview for a position as a nanny. Upon arriving for

the interview, Summer becomes engaged in braiding a little girl's hair while waiting. Tyler comes out of his interview, takes one look at Summer, and interviewing her is just a formality as the decision to hire her is already made. The chemistry between the two is undeniable but Summer is the nanny so they have to maintain a professional distance. Can Summer and Tyler stay away from each other? The way things are sizzling between the two, my vote is NO! However being a nanny is not an easy job and will Summer be able to keep it? Can Tyler keep a lid on his outbursts and relax his rules to keep Summer?

This is an engaging book that pulls at the heartstrings. The physical attraction between Summer and Tyler set the pages on fire! I loved the growth that Summer goes through to make her the woman she always wanted to be and proves that life is meant to be lived outside of one's comfort zone. I definitely recommend this story.

I volunteered to read an arc for a review.

Shelly Celli says

This was a very cute story that I really enjoyed. The characters are amazing and I love when kids have a big part in a book. Summer's parents kicking her out and forcing her to grow up was a great thing to have happened to her. She was too fake and uppity. Working with the kids and getting that responsibility under her belt was just the key to kick her in the butt. I definitely recommend this book to everyone.

Oh what a beautiful story. It pleasantly surprised me as at first, I thought Summer Edwards was a bit of an airhead. How wrong I was. She was spoiled and rich BUT it wasn't entirely her fault. I think she just needed a dose of reality and oh boy, did she get it big time. Having to get a job and learn about life in the real world is such a shock. I even felt sorry for her at times but being a little trouper, she gave it her all and tried her best. Finally only one choice left ... to be a nanny to Faith and Thomas. Such lovely children but not the problem. Their dad Tyler English is. A really well written story of how Tyler and Summer get used to their now different roles in the home. I think they learnt a few lessons along the way and looking after Faith and Thomas in the process. A really good story and at times it had me in tears it was so emotional. Still loved it though and you will too.

DawnMarie Carpintero says

Cute

4 stars

This is a fun and cute book.

It's confusing at one point but the author does a great job in saving that part but also the author brings you to believe one thing is going to happen and then changes it up at a laugh out loud moment.

Sexy

Happy Sexy Reading

Bellereader says

Summer and Tyler play the classic Nanny/Daddy HEA to perfection ? Summer has a lot of growing up to do. Her parents tired of her immature ways have cut her off and she is on her own. The pampered princess is on her own two louboutin clad feet and she is going be for a heavy reality check. When job after job fails her desperately she gets a post as Nanny to Tyler English's two adorable little muchkins. With no childcare skills she knows it's a stretch but she is determined to make it work. Only problem is the gorgeous daddy that is making very difficult to focus on the task at hand. Tyler needs a Nanny fast. Since losing his wife years ago he's been going through Nannies like paper towels with his selective nature and quick temper. When the refreshing and beautiful Summer walks in and wins over his kids, Tyler is willing to give the girl a try, even if that means keeping his baser instincts under wraps. But as they live in such close quarters the attraction becomes harder to ignore and soon lines are blurred. Tyler will need to tread carefully to keep the Nanny he needs and woman he craves.

Wendy Livingstone says

I was not sure about this book to be honest, as spoiled rich girl Summer, got on my nerves, but I am so glad that I persevered, as this is honestly a great story. Tyler is a widower who is raising two children with the help of a nanny. When Summer interviews for the position she is hired on the spot, as Tyler loved how she interacts with the children. The chemistry between these two is steamy as well. No spoilers this is a must read in my opinion!

This is a rollercoaster of emotions and humour, but is extremely well written and the story flows seamlessly. I recommend this author's work for all readers.

I voluntarily reviewed an ARC of this book for the author!

Michelle Mulvey says

I loved this book by Sarah Brooks. Summer Edwards is having some really bad luck lately. She's used to getting everything she wants without having to work for any of it. When her parents cut her off and throw her out, she is forced to get a job but she can't seem to keep one for long. She finally calls Daddy to ask for some money to pay her part of the rent but he said he will be willing to help her when she can hold a job for 30 days.

She starts working as a nanny for Tyler English and his two beautiful children. Of course Summer falls Inlove with the children instantly. It doesn't take long to notice how hot Tyler is either. Summer is going really well adjusting to her new job. She does have some problems but nothing to big. She may forget a few things here and there but the kids love her, she loves the kids and the kids are well taken care of.

What happens one night when one thing leads to another and Summer and Tyler cross that line. They both know it is a total cliché to have a single father sleep with the nanny but neither of them care at the moment. What will happen shortly after when one of them decide what they have going just isn't going to work.

Tyler is a single widowed father who loves his children more than anything in the world. He's been through quite a few nanny's over a short time period. Then he hires Summer. He doesn't know how he is going to last with such a beautiful woman living in his home caring for his kids.

I thought this was a well written book and I loved the story behind it. I'm a nanny so I may be a bit bias lol

Kathy says

I almost lost in during the beginning of the book The way Summer was really turned me off to her character but I can say when she finally realized that it was time to grow up, I loved her character. Summer has been a spoiled brat for a very long time coming from a rich family. Her parents kicked her out of the house about 6 months ago hoping that she would grow up and become more responsible. She struggles to do so, thankfully her friends were able to help her. Tyler is a single father. His wife died about 3 years ago and he keeps going through nannies like water. He is a bit too tough on them and sometimes a touch mean. When a friend tells Summer that he has a friend looking for a nanny and will make a cal for her she jumps on the chance. She needs a job and nothing has been working so far. She loves kids but has never been a nanny before. When she first sees Tyler, she's thrown a little because he is so sexy. She gets the job and her life changes in ways she never thought possible. How will Tyler and his two kids affect Summer? Will there be more happening than her just watching the kids? What happens when a person gets too attached then has to leave? I'm not that reviewer to tell you so you will have to pick up the book to read yourself. It's good, really. I voluntarily read an Advanced Reader's Copy of this book.

Kathy says

This review is from: Bedroom Rodeo: A Billionaire Romance (Kindle Edition)

Bedroom Rodeo is a great, fun, sweet, sexy nanny/single dad romance story by Sarah J. Brooks. She effectively used the point of view of one of the main characters for each chapter. This was a great way of developing each character's personality, thoughts, and emotions so that the readers feel that they know the characters intimately. Sarah J. Brooks does an excellent job of making the reader feel that Summer is a very unlikeable, rich, spoiled brat at the beginning of the story. She's been forced to move out of her parents' home so that she will finally learn how to become a responsible self-reliant adult. It's easy to fall in love with Tyler, a widowed single dad, who is working hard to raise his children and work at the same time. He has been so strict and demanding of his nannies that they have either quit or been fired. Now, he is desperate to find someone to take care of his children while he's out of town for a two week business trip. Since Summer needs to get and keep a job to prove herself to her parents, she applies for the job as a nanny for Tyler's children. Tyler and Summer are sexually attracted to each other, but they are trying to keep their relationship on a professional level of employer/employee. Will Summer finally be able to hold down a job? Will Tyler be able to keep his feelings and attraction to Summer under control? Bedroom Rodeo will make you laugh and cry at times. You can't help but love and care for all the characters in the story. I thoroughly enjoyed Bedroom Rodeo!! I can't wait to read another book by Sarah J. Brooks!! I voluntarily received an arc for an honest review. KMc

Meghann Alford says

Wow. When I first started reading this book, I wasn't so sure about it. Summer is one of those girls that I really can't stand. Superficial, all about money and looks. I almost stopped reading it to be honest. However, I AM SO GLAD I DIDN'T! This story really takes you on a roller coaster and an evolution. By the end of this story you will laugh and you will cry. But even better is the transformation that both Tyler and Summer go through and the people that they have become. I really loved this book. It's not really a story about a nanny and her boss. It's more of a story about growing up, finding your true path in life, and finding that one perfect person for you to share it with. I voluntarily reviewed an advanced copy of this book.

Patty says

I want to start by saying I love Sarah J. Brooks' books. Each one I read continues to impress me and make me a bigger fan. With that saying, this book is no different. It has a great story and is a fast paced romance of fun.

In this book you have a spoiled rich kid Summer, who you learned in the previous book that she was kicked out and cut off by her parents. They did this to teach her that she needs to learn how to take care of herself in the real world. Summer is not doing so hot in this department. She struggles to pay rent and is selling off expensive bags to pay rent, only she hasn't learned to manage her money. With no help from her parents, losing another job and on the verge of being homeless, she needs to find a job. Her friend Anna's boyfriend Jason helps get her a job as a nanny for Tyler. Tyler is Mr Successful single dad of two wonderful kids. He is in desperate need of a nanny to take care of the kids while he closes a big deal. He is a widow who is not interested in dating anyone. Will Summer change her ways and hold down the job as a nanny? Can Tyler trust her with his kids?

Sarah's characters are so exciting and energetic. I like how she has the characters from her previous book make appearances in her current story. It lets you know that those characters are still making it work. In this book I found Summer to be annoying and a spoiled brat. She really needed to buck up and change. She was so whiny. I like how Sarah portrayed Summer's character and how she struggled to become the real her.

Tyler is a very stern and strong-willed man. His kids are soo adorable. I like how the chemistry between the main characters is so explosive. I love the ending. It made me cry. I am such a sucker. This book is a standalone with no cliffhangers.

*ARC provided by Sarah J. Brooks in exchange for my honest review.

Mary King says

this girl is something else , spoiled and thought she was too good for everyday work and she had a idea that taking care of two kids was something she could do no problem. Well lets say that she was mistaken and to see her covered in mud did my heart good. my husband thought i had lost my mind with me laughing out loud, i loved this book and it had me laughing and crying (both out loud which my husband still giving me looks when i do it lol but that is what makes this a perfect book in my opinion. I loved seeing this young rich girl that only cares about shopping and herself grow up to being a loving caring person that thinks about what is good for other, wow is all i can say. If you want a great down to earth love story that will make you laugh and cry than this is a must read. I voluntarily reviewed an advance reader copy of this book.

Elaine Coghlan says

I received this as an ARC, truly not disappointed. This is my second book of Sarah's and I can honestly say I have found a new author who doesn't fail. This is Summer & Tyler, we first encountered her in Anna's and Justin book.

Here we find Summer, no job and staying with a friend, her parents have kicked out to try and help her to find her way, they got fed up paying her huge credit cards bills and wanted her to work for her money, and also to look after herself. She has to keep a job for at least a month, until her dad would help her out again. Justin comes in to help; he has a friend who needs a new nanny to look after his children. Tyler a widow, who has an important deal to make needs a nanny to look after his two beautiful children, while he is away, how hard can that be?

The chemistry starts to work Tyler is hot, Summer is young and pretty they try to stop any feeling they have, until one night! I won't say anymore otherwise I might spoil the plot. Please pick up a copy of Bedroom rodeo you will not be disappointed, I wasn't.
