Hotter Than Sext Felice Fox

Short Story

Marc was born for the sea, but damn if he wasn't also 'born' to be loved-up and lusted-after by a woman like Lauren. Will the passion he feels for her make him change course? Accepting a dream job offer in New Orleans, Marc devotes himself to pleasuring her in deliciously naughty ways—anything to prove they've got to make it work.

In the conclusion to this bestselling series of short stories, Lauren and Marc discover that soul-searching intimacy and fiery nights are infinitely hotter than sext.

Warning: This story is also 'hotter than' Louisiana hot sauce, and may lead to beignet body shots.

Review & Give Away coming 6/5 on my blog iloveladyporn.blogspot.com

The description doesn't lie that this book is "Hotter than Louisiana hot sauce"!

The sex is defiantly on the raunchy side and there is a lot of it.

One could be so lucky to be able to let go like Lauren has. Lauren comes to terms with Marc's lifestyle and discovers something about herself along the way. Marc thought he wanted "things" in the bedroom but really he discovers he only wants Lauren.

Super hot romance!
