The Grafton Girls Annie Groves

'The Grafton Girls' tells the story of four women brought together at the Grafton, the local dance hall favoured by American GIs as well as the local girls. In this heady, uncertain time, infatuation and passion blossom. But has each girl found true love - or true trouble.

From Reader Review The Grafton Girls for online ebook

Rebecca Bausch says

Cute and fun. Nothing special, basically chick lit, but an enjoyable read about an era I really don't know much about other than the Holocaust.

Layla Ashby says

Read many tpyears ago would read again 5 stars.

Sarah says

Loved this book, such an amazing insight into the world of women in WW2!! Couldn't tear my eyes away from the page!

Samantha says

Loved it Just as Much as when I read it the first time :)

Sahara says

This was an okayish book. The plot was predictable and there are so many stories similar to this. Story of four girls and their lives and love lives etc. But the interesting part was that the setback was during the world war.

The book is definitely worth a read. But don` t get too excited cuz you might be disappointed.

CLM says

Predictable but appealing - a pity I somehow wound up with book 3, as (a) I hate reading out of order and (b) Groves is not available in the US.

Bronwyn Rykiert says

This is a delightful story of 4 different women who meet during world war 2 in England.

Diane and Myra find themselves billeted and working together at Darby House and Ruthie and Jess work together at the munitions factory, the four come together at The Grafton, a dance hall that is frequented by

American GI's.

Ruthie is befriended by an American Glen; Diane is running away from a broken engagement; Myra does not want to be married to her husband Jim and has visions of a life in America and Jess is in love with her long time neighbour Billy.

Kathy Huynh says

I just finished this novel. It was pretty easy to get through. I enjoy reading about love stories during war and this was about four women finding happiness in the midst of devastation and war. It explores how women handle the unknowing danger that lay ahead and their desperate need for comfort in the arms of a partner that could be here today and gone tomorrow. This book lacked substance but fairly light to read so I didn't mind much.

Andrea Kwast says

I enjoyed this look at the girls in England during WW2: definitely a tale for the girls but I liked it. Again not my usual genre but worth a read. Do it.

Shahanna says

3.4

'To the future, and the end of the war, and of course, the Grafton,' Jess grinned. 'And to us, the Grafton Girls.'

Wow. That's one long year. I didn't even realise that it's been that long since I started this book. I can barely remember what happened in the first part but I read half of it today. And so I'd write about that.

This book was on the brink of being left unfinished. But I was reorganizing my bookshelf today and thought that it's about time I get this one over with. There are ten other ways I wanted to put this down but I decided to finish it.

And I'm really glad I did. I've learned a lot from this book. It's pretty amazing now that I finished it. It takes me back to 1942, when there were war, chaos, and losses. And amidst that, there's life, love, and most importantly hope. It showed me that even in the most unfortunate circumstances, it's possible for those three things to sprang up.

This book is so heartbreaking and so real. Wow.

Joan says

Light reading, quite enjoyable, but the ending, after all the dramas, was disappointing for me.

Shirley Revill says

Really enjoyed this book. Recommended.

♥ Ashleigh ♥ contrary to popular belief i'm not actually mad! says

Borrowed this book from a friend at work, who she got from her mum. The plan was to inform her if it was worth reading - My advice was to give a pass.

Set during the war, was mainly focused on the 4 MCs and their potential love interests, nothing really to do with the war which I thought was a bit odd and found rather disappointing.

If you want to read a book set during the war, with a romantic overtone there are much better books out there. I would recommend Jackie French personally.

Victoria Shepherd says

As with the other books in the series, the ending arrives a little too neatly wrapped, but the careful detail to ordinary lives in an extraordinary time is richly fulfilling.
