After a harrowing attempt on her life...

Vampire hybrid Josephine Anderson and her gorgeous vampire mate, Stefan Lifsten return home to New York City. Unknown to her, they will be forced to face the Council regarding her brush with death and Stefan's hand in the killing of the vampire that attacked her...

There's more than meets the eye...

Her continued changes reveal that there is much more to her relationship than she originally thought... going much deeper than simply fate and destiny. Their passion and desire for one another increases, threatening to consume them both...

Time is slowly ticking away...

As their Council date approaches, long-buried evidence is uncovered that further complicates Josephine's tenuous relationship with her vampire father... and will change vampire hierarchy forever...

Anna Burttram says

I really liked this book and now all thats left is the final book in the series which i am so beyond ready for. I read this one in the matter of 3 hours. I couldn't put it down no matter how hard i tried. For a free read it was definitely worth the wait un receiving it. There were a few grammar mistakes that threw my flow of reading off, but i'm not gonna hold it against anyone.

I love that Anna is a vampire now! Her and lukas are so funny and make wonderful friends. The love Jose and Stefan share is so sweet. I hate the part of the book where he ask her to marry her and she refuses at first. In books there are suppose to be subtle character development. Here there is some with the main Character Jose, but that back track there annoyed me. It's been 2 and half books of him confessing his love to her and she slaps him in the face like that. That was the only aggravation I had through out the book. Still lots of sex!

From start to finish this book will keep you on the edge of your seat! The bond between Josephine and Stephan is incredible and unbreakable. Not to mention how much Jose has grown since the first book in her powers among other things. If you love vampire erotic romance novels this series needs to move to the top of your list!

As Stefan and Josie's love continues to grow so does this story as the plot thickens with new twists and dangers surfacing within the council and the past and the future begin to meld together with the entrance of new characters, with their own past stories yet to unfold, along with Josie's ever developing abilities. As always, I'm left waiting with abated breath for the next installment from this series in wonderment of where this ride is going takes us next. Alexandra Anthony really brings the reader into the world of paranormal erotica and captures you to where you wish for no release.
Love this series.

Great Read!

I can't believe I have never written a review for this book. I have read it two or three times. I absolutely love this series. I enjoy it more and more each time I read it.

Sitting on the edge of my seat waiting for the fourth book now. Hoping for a fast release on it. Love Josie and Stefan. Laughing like crazing at Lukas and Anna from the get go. And can't wait to see what's goes on with Nik. Which is running a close second to Stefan in the sexy category. This series has a great story line with just the right amount on sex appeal. Great job.

Tami says

Alexandra has done it again! Another nail biter in the wonderful Stephan and Josephine story. The characters will capture you. Several of the secondary characters have found their way into my heart and I am I am looking forward to Destiny, the next book in the series. I find that the characters linger on in my mind long after I have finished reading as I speculate what if anything awaits them next.

Anita Powers says

This book is full of so many moments that are more romantic to me then erotic, I loved this book, these books get better and better as they go. This book starts off where the other one stopped and it is difficult seeing how the whole situation with Derek and Anna has affected Stefan. My heart broke when Stefan told Josie about bonding them indefinitely and how she reacted to this at first. The part about her editor was strange because I don't remember any mention of her being a writer since the first book, I forgot all about it, the one think I did like that came from this was how hot Stefan is when he is jealous. I have to say I was surprised at how emotional I got when Anna came around, I was so fearful of what this would mean for Stefan and Josie's relationship. Josie's reaction to how Stefan treated Anna was similar to my reaction and it broke by heart, I would have felt the exact same way if I was her. Here she wanted him to save her but never knew that she would have to share part of him with her too. I am wondering what in the world is going on with Georgia, she is acting weird, will we find out later? I loved how romantic Stefan is, taking her up to the roof, wanting to marry her in a human ceremony, my heart dropped with her answer, but I have to say I was thrilled that Lukas stepped up and put her in her place and then she saw what she was doing and realized where she had made the mistake and then made it right. It was so great that the author had Josie meet someone in her dreams (don't want to spoil)that could make things clearer for her different times in this book. I really like how the author introduces us to new and exciting characters, this time we met Amir and of course I was thrilled when Stefan connected him to Lukas. I was happy that Sofia was put in her place when she was disrespecting Stefan. The showdown between Josie and her father was exciting but I worried because it felt like she was telling him all of their secrets and I thought they wanted to wait and catch him by surprise so I was angry at the same time reading this as I was excited. I did love how the author has Josie being so powerful, it makes it feel like she is becoming more equal to Stefan but in a different way. After this confrontation, man how the author described Stefan's anger and then him showing this through his want for her sexually was so hot, I loved when he said to her "You are not going to stop me now? Suddenly you are anxious for me to control you" Then later he says to her, "You are completely frustrating and addictive. I merely existed before you." I have to say the last chapter was so hard to read, I swear how Alexandra wrote this I could feel Josie's pain, it was so heartbreaking. The way she shows how this bond between Josie and Stefan really is, wow now it is clear that one cannot be without the other. Then how she took care of him and how tender these moments were, I loved it and then the ending, really Alexandra could you make my heart ache any more? I cannot wait until I get my hands on the next book, am starting it right away.

Charidy says

I could barely wait for this 3rd book. Josie and Stefan were meant to be mates.... but What Is She? That is what we are trying to discover. We know she's human and vampire hybrid but what else?? The questions are almost answered....

Her father is the biggest ***** there is and she wants no part of him or his evil ways. Stefan is her Vampire soul mate, to put it mildly. Their love is intense, REALLY INTENSE. But it is also beautiful, while he is a 1000 year old vampire with unbelievable strength, he is also incredibly tender.

If you love reading about Vampires but would like a more "adult" version... HERE IT IS!!!! This Erotica is steaming hot while not being crass or cheesy. The story line is amazing and you could almost believe it's real. I think I actually yelled "no" when I got to the last page..... I wanted MORE, MORE, MORE!!!!

Things keep getting worse, but the bonds keep getting stronger

New horrors uncovered, an old fling coming into the picture, and a family member trying 2 guide the way? What will all this mean for Josey and Stefan? An explosion, veiled and not so veiled thread threats, a new luv that's blossoming, an old fling rekindling, and a scare that may destroy Josey.

I spent all night reading this installment of the series, ands can't wait 2 see what happens next. If u haven't started this series, u should start it now. Don't wait!
