**Can a human be trusted with a secret that's been kept for thousands of years?**

Reef Parker's recent life has always been focussed strictly on running the Hollows Authority, the privately owned and only sector of law enforcement in Hollow Earth.

His life takes an unexpected and shocking turn when he learns an industrious sprite has developed a way to do the unthinkable—transport mortals into the Hollows.

Penelope Carling has lived her life without making waves. Shyly beautiful, no one could have imagined that beneath her quiet exterior was a tormented soul who had endured abuse at the hands of a gaslighting boyfriend for years.

Finally gathering the courage to end her relationship, her ex systematically ruins her life and sends Penny running back home to her roots...and into the most terrifying place she's ever been.

Guided by an obscure dream, Reef knows he needs to keep Penny safe, but how can he when the whole world is out to get her?

If you love dragon shifter romances, bad boys, and alphas who know how to take charge, then you will love Secret Mates.

### Emma says

This is an exciting action adventure story of one of the Dragon Princes of the Hollow and a mortal from sunside earth. This begins with Penny breaking up with her boyfriend Ryland. He proceeds to ruin her life by taunting her, locking her out of their apartment, stealing her share of money from their joint account and causing her to lose her job. She retreats first to her sister's home when she finds out that Ryland told her sister that she was on drugs and needed help. Her sister believed him and not her. Penny was so upset she took off and drove from Houston to New Orleans where her parents lived. When she arrived, her sister had gotten to her parents with the same drug abuse story. Penny could not take any more disappointment. No matter who she turned to, no matter where she went, she found no respite. She ended up on a park bench in the middle of Louis Armstrong Park. Almost forgetting her problems for a while. She was approached by a sixteen-year-old girl named Violet, offering her the experience of a lifetime. At first Penny was leery but then decided to go with it. After drinking a vial of liquid, she ended up in the Hollows. She was afraid and astonished at the same time. Simultaneously in the Hollows, Reef, one of the dragon princes had been notified by his brother Wilder that mortals were passing through the portals and entering the Hollows. Reef found that hard to believe because one: they would suffocate from lack of oxygen and two: there was a virus they would contract that clings to their white blood cells and destroys their bodies. Wilder gave him proof that mortals did indeed visit the Hollows. Reef left Wilder and decided to investigate. Days and nights went by and Reef had been constantly monitoring the security cams all over the Hollow. Weary, he went to his apartment in the palace to rest. As he fell asleep he had a dream like vision about a group of mortals that passed through the portal and were killed for being there. For some reason, Reef felt anguish, sadness, grief over one of the dead mortals. A redheaded woman. When he woke up the dream was so vivid that he took it as a sign not to kill the mortals and save the redhead. At that very moment he was alerted that six mortals had passed over to the Hollows. Reef was given the co-ordinates. He went into dragon mode and flew there directly. He confronted the mortals and started to interrogate them. Then he told them to go back. All of them ran towards the portal except one, a redhead. Penny just stood there, she did not understand why and was confused that she was attracted to this dragon he-man. The others of her group called to her and she told them she would be right behind them. The others jumped into the portal. After talking with Reef, Penny walked over to the portal only to be shocked. There in the portal were the mangled bodies of the other members of her group. Reef knew that if he did not act, Penny would be killed. All Reef understood from his dream was that it was imperative he save Penny. He took her to a safe place. An apartment in the Trenches. Reef felt the attraction to Penny and he could tell she felt it too. Their passion took over and they spent time together forgetting all the danger around them. Reef left Penny there on her own promising to return with supplies. Not only food but internet access and books. Wilder put a bounty of four million dollars for Penny's

capture dead or alive. Things were only getting heated up in the Hollows. Would Reef be able to keep Penny safe? What of their attraction to each other. Does it mean something deeper between them? Will Wilder find out where Penny was? What of Violet, will she return to take Penny back to sunside? Why was Violet doing all this, what was the reason and how was she doing it? All these questions and more are answered in the book. It is action packed and is not boring. The characters are well defined and personable. The story is moderately paced. I enjoyed reading it. I highly recommend it. I received a free copy of this book via Booksprout and am voluntarily leaving a review.

When Penny decides to dump her controlling boyfriend her life begins to spiral out of her control. He manages to keep her belongings and her money, arrange for her to lose her job and convinces her family she has a drug problem. What happens to her and her connection to a dragon prince in the story will keep you engrossed in the story. Although this is part of a series, it can definitely be read as a standalone. I will admit though, after all of the princes' brother, Wilder, has interfered in the books so far, I can't wait for him to meet his match.

Five dragon brother princes rule the Immortals from the inside hollow earth.

When Reef Parker, the Prince in charge of security of the Hollows finds out mortals are entering the Hollows he can't believe it, it has to be a joke. ### **Wonderful Tourist Trap**

Reef Parker is the head of the security that keeps the Hallows safe. He realizes that things are happening in the Hallows and they're keeping him in the dark about what is going on. After finally realizing what's going on he is determined to put a stop to it. Someone has found a way to let Humans pass the portals unharmed and is providing tours of the Hallows to humans! Penny is going through a tough time, she broke up with her manipulating boyfriend, lost her job, her place to live, all her possessions and now her family thinks she's a drug addict. In order to get her life back in order she goes to her childhood home in New Orleans. On a stroll through a local park she gets an offer from a young woman that will change her life forever. I enjoy this series and love how each of the princes are so different, and how they take on their mates, who are just as unique as the brothers. I can't wait to see what Wilder's mate is like.

Another story of the Hollows - and power hungry dragons. After the dragons decided to work together they had each their own area of responsibility. But Wilder - true to his name - is a wild card and tries to put his finger into everything, causing havoc and distrust.

Reef is in charge of security, but Wilder oversteps his boundaries again and causes a risk for the Hollows and its paranormals by allowing a ring to people to bring in mortals to the Hollows. Penny is one such

unsuspecting humans. When Reef finds in her his mate the chaos is complete and there is plenty of interference - well-meant and malignant - to drive a wedge between them.

A well-written story, like the others of the series, and fun to read.

### **Kristy says**

This book gives a little background in the beginning so you know why the Hallows are there and how they were being ruled by Dragons. Penny has no knowledge of the Hallows she is just trying to get out of a bad relationship with a complete jerk who is determined to ruin her life after she ends things with him. Reef is in charge of things in the Hallows he's a Dragon prince he rules by fear but with his constant interference by his brothers and someone sneaking humans into his domain. He knows that if others find out there will be consequences. Once Penny enters the Hallows he will have to keep her safe and get her out of the Hallows to save her life but he doesn't want to let her go now that he has her. My only complaint is that I wish these books were longer so sometimes certain aspects of the books feels rushed but it's still a good book and I hope that more will be written about the Hallows and its inhabitants. I was allowed to read and advance copy of this book by Booksprout and this is my honest review.

### **Deb says**

First of all, I liked the book. I found the story to be interesting. I believed the mortal story in the beginning up to a point. I had to wonder if her ex had a bit of magic in his veins that allowed her family to believe him. The aspect of a portal to another realm was interesting. I did think that the relationship between the two main characters was fast and not as believable. But I still enjoyed reading the story because I thought the author wrote a pretty great character in him. I found her to be a bit underwhelming in the sense that she allowed both realms to destroy her personality...she didn't fight for herself at any time. She just gave up. I wished the author had written her to be stronger. I don't recall having him or anyone stating that they were mates though so I was puzzled by the title.

### **Leopardwolf says**

Penny's life has taken a nose dive, thanks to her mentally abusive and manipulating ex she's lost everything....but also found a whole new world.

I loved this book especially because it deals with several forms of abuse in a relationship as not all abuse is physical. Here we find Penny as she finds her voice and the gumption to say enough is enough., unfortunately no one believes her when she says how manipulative her ex was and so her family thinks she's a druggie. But as her life collapses around her she finds herself in a while new world (and no Disney cutsiepie in sight! Yay!)

I loved the way that Juniper Hart tackled the sensitive topic that is found in this book in such a loving and understanding way. And I felt that she portrayed it so truthfully and with compassion. A great insight into a manipulative and controlling relationship.

I voluntarily received a copy of this ARC for review.

### **Rhonda Hicks says**

Penelope and Ryland worked together at Veriday Communications, she in sales and he the tech genius in upper management. They'd been together a little over three years and although Ryland was extremely well off and had gorgeous eyes, physically he had no more prowess than an eighteen year old boy. Their continued arguments over her flaws and misdemeanors had gotten to the point Penny had no feelings left for Ryland and she wanted out. She would miss the living accommodations more than the person himself. Unfortunately through the years, Ryland has had the tendency to emotionally manipulate her into becoming the puppet he needed and she has blindly followed along. Not anymore!

Reef, one of the Dragon Princes of the Hollows, was in charge of Hollow Security, at least he was suppose to be, but Wylder had a tendency to step in and override his decisions. Evidently a crook by the name of Oscar had brought allegations of the Hollow being infiltrated by humans and had pictures to prove it. But how did Wylder know before Reef and how did they get there?

Once again Juniper Hart has taken us into the world of the Hollows with all the intrigue and mysticism it contains. An easy read that will keep you interested and on your toes following along and putting your sleuth tools to work while a plethora of emotions will be displayed over these well developed characters. What a

wonderful series and can't wait for the next one!!
