## **Duck's Not Afraid of the Dark** Ethan Long

The duck is back in another rollicking novelty book that kids will enjoy for hours on end. This time, our familiar duck insists he is not afraid of the dark...but please don't turn the lights off! Complete with a light switch that lights up and makes an audible CLICK when pressed, kids will roll with laughter as they turn the light on and off until the duck finally admits his fears are unfounded!

## **From Reader Review Duck's Not Afraid of the Dark for online ebook**

### **Zack says**

Fun and funny. I give the little light switch a week before it stops working in the 'brary.

---

### **Rebecca says**

This book has a built-in lightswitch that you can click on and off as you read the story and continually leave poor Duck in the dark. Hilarious. Should the lightswitch break, you could pretend to press it or snap your fingers, and I think it would still work with a group.

---

### **Kelly says**

Two-thumbs up!!! This book is awesome for both children and adults...one of my favorites!! I have read it to several different age groups and it never fails to bring out the 'bravery' in every child as they protect me/duck from what is under the bed.

---

### **Crystal says**

An interactive book, with a light switch to turn on and off. I chuckled all the way through. Cute ending.

---

### **Renee says**

I wasn't really overly impressed by this book, but it was a cute little book. I can definitely see it being a hit with the Storytime crowd. Probably even the older kids. Reminds me a lot of Jan Thomas' books.

---

### **Lisa says**

has a built if light switch that lights up and clicks! Wonderful. Illustrations are great.
