Joe Abercrombie's "First Law" series of fantasy novels have been translated into 26 languages worldwide and sold over two million copies, garnering a ton of acclaim along the way. Come find out why with the first issue of The Blade Itself...

Logen Ninefingers, infamous barbarian, has finally run out of luck. Caught up in one feud too many, he's on the verge of becoming a dead barbarian, leaving nothing behind but some bad songs, a few dead friends, and a lot of happy enemies.

Captain Jezal dan Luthar has nothing more dangerous in mind than fleecing his friends at cards and dreaming of glory in the fencing circle. But war is brewing, and on the battlefields of the frozen North they fight by altogether bloodier rules.

Inquisitor Glokta, cripple turned torturer, is cutting treason out of the Union one confession at a time. His latest trail of corpses may lead him right to the rotten heart of government ... if he can stay alive long enough to follow it.

Murderous conspiracies rise to the surface, old scores are ready to be settled, and the line between hero and villain is sharp enough to draw blood. Unpredictable, wickedly funny, and packed with unforgettable characters, The Blade Itself is fantasy with a real cutting edge.

"It's funny, violent, and brilliant. Imagine if Quentin Tarantino wrote a sword & sorcery novel."

### Paul Nelson says

Issue 4 centres more on the political dealings of the inquisition as we see the Lord Chamberlain entertain the commoners for the chance to put there case to his August Majesty, the High King of the Union. Amongst these are two extremely interesting guests, one a delegation from the king of the north, Bethod, seeking to end the hostilities between the two nations and we get our first look at the massive Fenris the feared who features later in the trilogy. The next visitor is Yoru Sulfur from the great order of Magi, he is here to herald the pronounced return of Bayaz, first of the Magi who swore an oath to return in time of need.

Glokta, Practicals Severard and Frost track down the names on Rews list but it seems the information and an assassin has beaten them every time, seems a traitor must be dealt with.

Unfortunately no nine fingers in this issue and Jezal features only fleetingly but his mind is lost to Ardee West and his training becomes all but useless. Artwork and story is spot on once again, can't fault any of it.

### Nermin says

Unbelievable but I think I like the First Law comics even more than I liked the series itself. Kudos to Andie Tong for the amazing artwork which really gets better and better with each new issue. This fourth issue is mostly centered around Glokta, Jezal and Colonel West. Unfortunaly we didn't see Logen Ninefinger or Bayaz this time, but we did get to meet Yoru Sulfur and Fenrir the Feared the latter of which is going to be a pretty important character in the Last arguments of the Kings. Overall a very enjoyable read and here's my favorite part. Gotta love Glokta and his dark twisted sense of humor.
